## Inspire the Next

## Remote Processing and Online Reporting for Cardiac Nuclear Stress!

VidiStar's HeartView® offers physicians the ability to remotely process and interpret cardiac nuclear stress studies

VidiStar's HeartView® will allow physicians the ability to provide timely interpretation from any location using a secure internet connection. HeartView® displays standard post-processed DICOM images and allows providers the ability to process nuclear cardiac images on the fly.

- **HeartView® Includes:**

- Standardized cardiac stress imaging and remote processing
- Nuclear stress report package that conform to IAC reporting format and guidelines, essential for quality assurance program and accreditation

- "Point and Click" reporting
- Review standard functions and cardiac stress imaging features
- Telemedicine capabilities for online, remote viewing of studies and to finalize reports.
- Provide referring physicians with studies and reports instantly via fax, email or VidiStar's award-winning Referring Physician Portal

VidiStar offers Cloud and onsite solutions
